

Kit Information Form

Purpose: It is safe to say that most modelers don't like to write documentation about their kits. Therefore this form was created to make it easier. Simply answer the following questions about your kit, and the information will be used to create a web page for your kit. If your project was a conversion, the Kit Name would be what you converted it to, with the Conversion Base being the kit you started with. Use the back for historical information, or if you need more room. This form is a guideline only. Feel free to write your own article.

Modeler: _____ **Scale:** _____

Kit Name: _____ **Mfg:** _____

Conversion Base: _____ **Conversion Kit:** _____

After Market Set(s) _____

Rate the Kit

Kit Quality:	Poor	OK	Good	Excellent
